

# Free to use and share

This kit is free. You're welcome to use it and share it inside your business or group.

## You can:

- Share the deck, policy, callback card, quiz, answer key, tabletop drill and free-resources page with **everyone in your business or group**: employees, part-timers, temps, interns and volunteers, however many there are, at every office or site you have.
- Print as many copies as you need.
- Edit the files: add your office name, your amounts, your contacts, and change the wording to fit how you work.
- Keep using it for as long as you like, including with new people who join later.
- Use it with a remote or hybrid team.
- **IT providers, consultants and trainers**: use it with your clients, free. The same "Please" rules below apply.

## Please:

- Don't resell it, or an edited version of it.
- Credit Tech Cheat Codes when you share it. Keeping the Tech Cheat Codes line on the files is enough.
- Sharing it publicly (on a website, social media or an open shared drive)? Only share a link to our page, [techcheatcodes.com/products/office-phishing-drill-kit/](https://techcheatcodes.com/products/office-phishing-drill-kit/). Please don't repost the files themselves.

**No guarantees.** The kit is training material. It can lower the chance of a costly mistake, but it can't stop every scam, and it doesn't replace your bank's rules, your IT provider's advice or your insurance policy's terms. Not legal advice.

**What we don't do.** We don't send simulated phishing emails to your staff, and we don't collect any information about your team. Your office runs the training and the drill itself.
